

GROW YOUR OWN HEALTH™

ONLINE BIODYNAMIC GARDENING COURSE 2023-24

hosted by WHOLISTIC LIVING UNIVERSITY™

This course is modular.

Start at any point in the year.

Lifetime access to all recordings, audio, video and study materials from the 1 year course with a simple link for downloading.

You can also choose to buy just a MODULE or a SEASON package (see below).

The course is directed towards individuals, who have the intent to learn to plan and implement a biodynamic garden and grow their own crops or within a communal set-up.

Are you interested in the above and sharing this approach:

- healing the soils and ourselves with others?
- become ambassadors to empower more people through food as medicine, to heal the soil, the environment, yourself and relationships ?
- become part of a virtual, international community of leaders implementing local biodynamic gardens?

Then this is your call!

Let's make this movement grow rapidly for providing food security and celebrating 100 years of the biodynamic impulse.

BIODYNAMIC ASSOCIATION members get a 20% discount on all options available in Wholistic Living University with a discount code.

It's worth considering becoming a member of Biodynamic Association UK!

OR CONTACT: admin@wholisticliving.co.uk

We are looking forward to welcoming you to our course.

Reclaim your custodianship of the Earth

Spread the love and be the change

With gratitude, Hans-Günther Kern
